4. (Secret - GLC) Lee Williams, Administrative Assistant to Senator J. W. Fulbright (D., Ark.), contacted me about the interest of [REDACTED] in employment prospects with Air America (see Journals of 10 and 11 June 1971). According to Williams, [REDACTED] contacted Air America as we suggested but has not received a reply from them. I told Williams I would look into it and be back in touch with him.

5. (Confidential - GLC) Ambassador Wymberley Coerr, INR, State Department, met with us here for an informal discussion of various pieces of legislation which have been introduced and which have some impact on the intelligence community. We reviewed with Ambassador Coerr our draft "Analysis of Proposed Legislation" which he found very helpful. A copy of the analysis is being given to him with the understanding that it is strictly a working paper of this office which has not yet been coordinated throughout the Agency.

6. (Confidential - JMM) Received a call from Miss Jo Anne Glisson, Secretary to Representative Paul Rogers, who said that Mr. Rogers was awaiting a response to his request for follow-up information on a matter I had discussed with him in July [regarding a report alleging ChiNat involvement in an "arms for opium" deal in Southeast Asia]. I said that in my last meeting with Mr. Rogers on 28 July I had assured him we would continue to look into this matter and report any results, but unfortunately we had been able to produce no solid information. I added that since our earlier conversation, Ambassador McConaughy had become interested in and had taken charge of investigation of the subject and suggested the State Department might be in the best position to keep Mr. Rogers informed.

After consulting with Mr. Rogers, Miss Glisson said he would like me to come to his office next week and bring a State officer. I suggested it might be best if Mr. Rogers himself called State Department. She asked what officer he should call and I said I wasn't sure who it should be, but I would try to find out and let her know.
